SUMMARY

Full-Stack Engineer with nearly 3 years of experience and a passion for frontend technologies. I am a highly adaptable and collaborative individual who thrives in a fast-paced environment. I am a self-starter who is capable of owning projects end-to-end and my current goal is to advance my technical capabilities and work on a wider array of technologies.

SKILLS

Typescript, JavaScript, Ruby, Angular, SvelteKit, Next.js, Svelte, React.js, Elf, Redux, HTML, CSS, Sass, Tailwind CSS, Ruby on Rails, Express, Axios, PostgreSQL, MongoDB, Jest, Vitest, RSpec, AWS, Git, Figma

EXPERIENCE

Flow Inc.

Full-Stack Engineer | Oct 2021 - Nov 2023 | Hybrid (San Francisco, CA)

- Led the successful adoption of the SvelteKit framework and Vitest testing library onto a new fully operational application in a matter of 4 months. This solution is now used by 90% of our current users and enhances overall user experience by being fully mobile-friendly.
- Mastered Angular and RxJS within a short timeframe, surpassing initial expertise in React.
- Orchestrated seamless collaboration across cross-functional teams, aligning technical solutions with the vision of design and product teams.
- Drove a product and design-focused approach, actively contributing insights to align technical implementations with user needs and project objectives.
- Facilitated collaborative knowledge transfer sessions through pair programming, expediting the onboarding of new team members and fostering a unified understanding of best practices within the team.
- Actively contributed to retrospective meetings, fostering a culture of continuous improvement that directly contributed to the team's success.
- Innovated and implemented best practices, resulting in the continual refinement and structuring of tickets for enhanced workflow efficiency.
- Authored comprehensive technical documentation, empowering the team with clear direction and ensuring the success of upcoming projects.

breathing.ai

Frontend Developer | Apr 2021 - Oct 2021 | Remote (New York, NY)

- Developed a scalable React front end based on high-fidelity Figma mock-ups, resulting in a seamless and user-friendly interface for customer onboarding.
- Collaborated closely with the design team to refine UI/UX, contributing to a successful go-live and enhancing the overall user experience.

EDUCATION

App Academy | Jul 2020 - Nov 2020 | San Francisco, CA

1000+ hours remote experience at 16-week full-stack coding bootcamp with a < 5% acceptance rate.

University of San Francisco | Aug 2012 - May 2016 | San Francisco, CA

School of Business, Bachelor's Degree in Business Administration; GPA 3.3
